HEALTH eCONNEX & ELDORADO COMPUTING FORGE STRATEGIC ALLIANCE

Park Ridge, Ill. – June 30, 2004 -- Health eConnex (HeC), a leading automated data capture and document management company, and Eldorado Computing, Inc. (ECI), a leading provider of health benefits management solutions, announce the signing of a strategic partnership. Under the agreement, ECI will offer HeC's product portfolio to its 130 clients, which include third party administrators, insurance companies, self-funded employers, PPOs, associations, managed care organizations and unions, as well as prospects.

"Eldorado has a tremendous reputation in the healthcare industry, making them an ideal partner," notes Jim Anderson, vice president of business development for Health eConnex. "We look forward to providing our world-class services and support to their current and future customers."

According to Zane D. Bell, CEO of Eldorado Computing, "Delivering on our promises to offer our customers with best-of-breed product solutions that complement ECI's HEALTHpac system, we are pleased to announce the availability of Health eConnex's automated data capture and document management solutions. HeC's meets our requirements for providing superior quality products and service levels.

About Health eConnex

Health eConnex is a division of Accelerated Receivables Management (ARM), an established eBusiness infrastructure company with more than 24 years of business experience to its credit. HeC is a multi-facet transaction processing organization focused on efficient and cost saving delivery systems for the healthcare industry. HeC represents an infrastructure process for linking the entire process together in a single solution concept by offering a distributed, all-payor all-transaction network-centric architecture. The company's enterprise-wide, scalable solutions are delivered more quickly, at less risk and cost, and with greater opportunities for reuse than ever before. HeC solutions are helping companies run an information network that reaches every customer, supplier, employee, and business process throughout the extended enterprise.
