FOR IMMEDIATE RELEASE

Health eConnex And FisaCure Announce Marketing Agreement

DALLAS— June 7, 2004 — Health eConnex (HeC) and FisaCure, Inc. announced today a marketing agreement to promote each other's services as a single approach in healthcare Explanation of Benefits (EOB) processing. HeC is an industry leader in healthcare EOB capture and mailroom outsourcing services while FisaCure is the fastest growing EOB processor using an Internet-based ASP model. This marketing agreement is designed to offer a single-source for EOB processing from the initial EOB capture, keying, balancing and reformatting to input into the practice management systems and online archival and retrieval. The marketing agreement will begin as of today.

According to Jim Anderson, HeC's vice president of business development, the relationship with FisaCure is a perfect match for HeC's business growth strategies. "In today's economy healthcare providers are looking for partners to process their EOBs at a high quality and service level with an affordable price. The FisaCure solution is the best we have seen from the EOB processing standpoint. By adding our capture model, the overall solution is enhanced delivering a seamless process. We are looking for great things from this relationship."

"At FisaCure we are focusing on the electronic data side and partnering with HeC to capture the paper data to meet our strategic model not only today but for the future," voiced Steve Arning, president of FisaCure. "HeC's main focus is the data capture side and our area of expertise is the processing side. This is truly a match that equals success for the healthcare provider."

About Health eConnex

Health eConnex is a division of Accelerated Receivables Management (ARM), an established eBusiness infrastructure company with more than 24 years of business experience to its credit. HeC is a multi-facet transaction processing organization focused

on efficient and cost saving delivery systems for the healthcare industry. HeC represents an infrastructure process for linking the entire process together in a single solution concept by offering a distributed, all-payer all-transaction network-centric architecture. The company's enterprise-wide, scalable solutions are delivered more quickly, at less risk and cost, and with greater opportunities for reuse than ever before. HeC solutions are helping companies run an information network that reaches every customer, supplier, employee, and business process throughout the extended enterprise.

About FisaCure

FisaCure, founded in 1996, is headquartered in Dallas, Texas. FisaCure specializes in providing the HIPAA-compliant transaction sets for electronic remittance services. Other areas of expertise include: claims and coding edits, electronic appeals and contract management applications for both providers and payers. Over the years, FisaCure has forged strategic partnerships that have extended its capabilities and created new industry standards, including Web-based image retrieval services.

While most of the healthcare industry is just becoming familiar with electronic remittance processing, FisaCure has more than four years experience enhancing the delivery of electronic remittance transactions for multiple providers and provider information systems. FisaCure continues to develop new rules and procedures to reduce provider exceptions and therefore maximize the benefit of electronic remittance processing for customers.
