FOR IMMEDIATE RELEASE

Health eConnex Launches New and Improved Web Site

Chicago, IL – July 20, 2004 – Health eConnex (HeC), a leading automated data capture and document management company providing complete paperless end-to-end solutions, has launched a new Web site that benefits both prospects and current customers. The Internet site, available at www.healthconnex.com, showcases their enterprise paper, EDI and integrated cost management services.

Visitors have access to a comprehensive listing of HeC's services, including overviews of their Universal Services and Core Services, which convert paper into electronic format and their Plus Services and Advanced Services, which maximize cost savings and cost containment. Additional information, such as outsourcing services, in-depth company background, press releases and case studies, executive bios, as well as contact information is also available.

"The new site is designed to emphasize HeC's commitment to service and quality. We have created a place where prospects and customers alike can go and learn more about what HeC has to offer. We believe this upgraded Web site greatly enhances our Internet presence and illustrates our desire to remain a leader in healthcare processing," comments Jim Anderson, vice president of marketing and corporate business development for HeC.

About Health eConnex

Health eConnex is a division of Accelerated Receivables Management (ARM), an established eBusiness infrastructure company with more than 24 years of business experience to its credit. HeC is a multi-facet transaction processing organization focused on efficient and cost saving delivery systems for the healthcare industry. HeC represents an infrastructure process for linking the entire process together in a single solution concept by offering a distributed, all-payor all-transaction network-centric architecture. The company's enterprise-wide, scalable solutions are delivered more quickly, at less risk and cost, and with greater opportunities for reuse than ever before. HeC solutions are helping companies run an information network that reaches every customer, supplier, employee, and business process throughout the extended enterprise.
