

Enterprise Paper and EDI Outsourcing Services

## EXPLANATION OF BENEFITS

WHEN IS LESS...MORE?

*When Health eConnex eliminates paperwork hassles*

### Outsourcing Services: Explanation of Benefits (EOB)

Ready to eliminate the burden of processing paper forms? **HeC's** Explanation of Benefits (EOB) services help hospitals manage documents more quickly, efficiently, and cost-effectively than traditional manual processes. When you outsource to **HeC**, you get:

- **More** cost predictability
- **More** labor and processing efficiencies
- **More** effective integration to in-house systems
- **More** HIPAA EDI and security compliance

More complete services reduce the burden of processing paper forms by transforming paper documents into electronic images and EDI transactions. In addition, **HeC's** integrated document management (IDM) services manage virtually every kind of document and every stage of the document lifecycle. Invaluable **HeC** services include:

- Mailroom
- Document management
- Scanning
- Web-based retrieval
- OCR
- Paper-to-EDI conversion

### Reduce Costs, Increase Efficiencies with Seamless Document Management

**HeC's** enterprise-class integrated document management solution makes EOB processing a snap. IDM manages virtually every kind of document and is built upon a highly evolved web-enabled, client server architecture that leverages the openness and scalability of databases like Oracle and Microsoft SQL Server to deliver high performance solutions. Further benefits include:

- Dedicated Image Hosting - **HeC** also provides image hosting services in addition to deployed systems
- Simple, Scalable Document Access - the **HeC** interface offers several methods of retrieval, including the ability to access documents directly from your line of business application.

### No-Sweat Indexing

Avoid the costly, labor-intensive portion of a document management system implementation--scanning and indexing. **HeC** offers the unique combination of outsourced data capture and document management integration and support.

### Step-Up Conversion to EDI

Taking the data capture process to the next level, **HeC** can also perform full data capture from EOBs and convert the form data to a proprietary or standard format, including HIPAA compliant 835 format, for downstream processing. Manual posting is greatly reduced or even eliminated.
